

WARRANTY CARD

flextraction's range of Hood Positioning Devices (HPDs) are covered by a warranty of 5 years from the date of purchase. The warranty covers against manufacturing defects or any shortcomings in the material. Within this period flextraction, either directly or through its dealers, commits itself to replace or repair the parts recognised as defective and covered by warranty. This warranty does not imply any other type of refund or compensation.

WARRANTY CONDITIONS:

- 1. Validity Period** – flextraction HPDs are covered by a warranty period of 5 years from the date of purchase. The start of this period is stated by the enclosed warranty form, which must be filled in and returned to flextraction within 21 days from the date of purchase. A unique warranty number will then be issued for your retention and possible future use. Without this number no warranty will be in force.
- 2. Warranty Recognition** – Warranty is valid only for parts declared faulty or defective by flextraction's technical service department.
- 3. Warranty application** – flextraction commits itself to apply the warranty by providing free repaired or replaced parts acknowledged under warranty.
- 4. Warranty Exclusions** – The warranty does not cover;
 - a. Standard wear and tear of parts such as – Hose and other consumable parts.
 - b. Defects due to improper application, inadequate maintenance and any other incorrect or misuse.
 - c. Any costs, other than those for replacing parts declared faulty or defective by flextraction.
 - d. Transportation cost related to checking, replacing or repairing faulty or defective parts.
- 5. Warranty Cancellation** – This warranty automatically becomes void if;
 - a. The product has been altered or repaired by none authorized staff.
 - b. The customer's account is in arrears.
 - c. The label containing the serial number has been removed or tampered with.
- 6. Destination** – Goods covered by warranty must be sent to the following address: flextraction Ltd. 10 Digby Drive, Leicester Road Industrial Estate, Melton Mowbray, Leicestershire, LE13 0RQ, UK. All transport costs related to sending and returning the goods for a warranty claim are at sender's charge.

HPD Range (Hood Positioning Device)

5 YEAR WARRANTY

Design Philosophy

flextraction's Hood Positioning Device (HPD) is the result of over 15 years use and application of flexible extraction arms.

flextraction has always strived to maintain its purist principles of LEV design and to offer the correct solution for any LEV problem. We are aware that 'off the shelf' flexible extraction arms are often misapplied. The HPD has been designed to address the deficiencies of conventional flexible extraction arms, in line with current HSE guidance, by enabling the correct design and positioning of LEV hoods.

To this end, flextraction has invested in engineering expertise and computer modelling software and has gone through a stringent development process to bring the new HPD to industry. The engineering within the HPD enables it to accommodate purpose-designed hoods that can be positioned as demanded by the process.

Benefits of the HPD Range

- No internal obstructions apart from the damper
 - No internal wear, corrosion, flow restrictions or solid build up
 - 5 standard diameters – 75/100/125/150 & 200mm
 - Standard wall mounting brackets INCLUDED
 - Arrives FULLY assembled
 - Range of hoods available
 - Range of mounting options
 - Five year warranty
 - Dust & Fume Extraction at exactly the point you need it
- HPD's are available in
- Polyester Coated Black
 - Stainless Steel
 - ATEX Compliant
