

GEOVENT

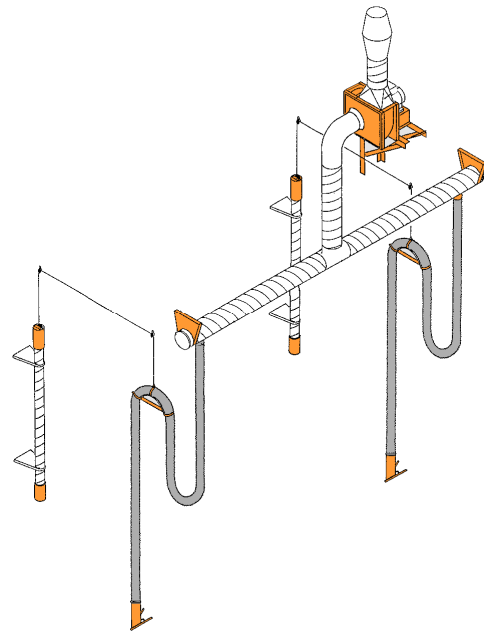

Hose Lift

Dimensions 80 - 100 - 125

The Geovent Hose Lift with plumb bob or balancer used for the extraction of welding fumes or exhaust gas. With the Geovent Hose Lift, rolled out hoses on the floor are avoided, and the Hose Lift is a low-cost alternative to the Geovent Channel Duct and Hose Reel. Also, the outlet is easy accessible to the operator.

The Hose Lift consists of a construction with plumb bob and wire suspension, as the low-cost solution.

If more space and comfort is required, the construction with balancer and automatic locking system may be used.

Ordering table – Hose Lift

Art.No	Model	Hose type	Hose dim. (mm)	Hose length (m)
07-071	Hose Lift L05-080A	Exhaust Hose	Ø76	5,0
